Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	31 January 2026
Team ID	
Project Name	
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)	Priority (High/Medium/Low)
1	Data Access & Integration	[Specify what business data the solution should access or integrate to address the use case.]	
2	Data Processing	[Specify what data preparation, transformation, or processing is required for the use case.]	
3	Business Analysis	[What business calculations, KPIs, metrics, aggregations, or analysis are required to answer the use-case questions. .]	
4	Business Insights & Analytical Outputs	[What insights, analytical outputs, dashboards, visualizations, reports, or result sets the solution should provide. .]	
5	User Interaction & Analysis	[Specify how users should filter, compare, drill down, or explore information relevant to the use case.]	
6	Data Update & Reporting	*[Specify how the solution should provide updated information and generate the required business outputs for the use case.]*	

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	
NFR-2	**Security**	
NFR-3	**Reliability**	
NFR-4	**Performance**	
NFR-5	**Availability**	
NFR-6	**Scalability**
