PROJECT DEMONSTRATION

Team Involvement in Demonstration

Project	Global Fuel Prices and Taxation Trends (2020–2026)
Prepared for	Anushka Dubey
Team ID	To be provided
Project period	2020–2026 (data coverage)
Platform	Tableau Public

Demonstration Overview

The demonstration will explain the need for analysing global fuel prices and taxation, introduce the dataset, and show how the Tableau Public dashboard turns the data into interactive visual insights. The presenter should explain the four dashboard views and demonstrate the year, region and fuel-type filters.

Demonstration Roles

S. No.	Team member	Role in demo	Section presented	Contribution summary	Participation
1	Anushka Dubey	Project presenter / dashboard analyst	Introduction, dataset overview and dashboard walkthrough	Explain the project objective, dataset scope, visualisations, filters and key observations.	Active
2	Not provided	To be assigned	Optional: data and methodology support	Add a name and specific contribution only if another team member is part of the project.	To be confirmed
3	Not provided	To be assigned	Optional: Q&A; / technical support	Add a name and specific contribution only if another team member is part of the project.	To be confirmed

Suggested Demo Flow

Step	Activity	What to demonstrate	Suggested time
1	Introduction & problem statement	Explain why comparing fuel prices and taxation across countries and years is useful.	1 min
2	Dataset & methodology	Introduce the 2020–2026 quarterly dataset: 7,056 records, 84 countries, 7 regions and 3 fuel types. State that values are simulated.	1 min
3	Dashboard overview	Show KPI cards and explain the four views: Fuel Price Trends, Regional Comparison, Country Ranking and Tax Analysis.	2 min
4	Interactive feature demo	Change year, region and fuel-type filters; explain how the views update and what comparisons become possible.	1–2 min
5	Insights & Q&A;	Summarise key patterns visible in the selected dashboard view and answer questions.	1 min

Team Coordination Notes

Aspect	Details
Team leader / coordinator	Anushka Dubey (project contact; confirm if a separate team leader is assigned).
Overall coordination	Confirm the final dashboard opens correctly, filters work, and all worksheet titles and labels are readable before the presentation.
Issues during demo	Record any actual issue encountered during the live demonstration; do not report assumed issues.
Resolution	Document the actual corrective action taken, if any.

Aspect	Details
Team ID	To be provided.

Note: Only Anushka Dubey is identified in the information provided. Additional team-member names and roles are intentionally left unassigned rather than invented.
