PROJECT DEMO PLANNING

Date	02 November 2026
Team ID	To be provided
Project Name	Global Fuel Prices and Taxation Trends (2020–2026)
Presenter	Anushka Dubey
Maximum Marks	1 Mark

Project Demo Planning:

The demonstration plan ensures that the project is presented in a clear and organised manner. It introduces the problem, explains the dataset and proposed solution, demonstrates the interactive Tableau dashboard, and concludes with key observations, limitations and a short Q&A; session.

S.No.	Demo Section	Description	Duration (mins)	Responsible Member
1	**Introduction & Problem Statement**	Introduce the project and explain why comparing fuel prices across countries, regions and time is useful.	1.0	Anushka Dubey
2	**Dataset Overview**	Explain the quarterly dataset covering 84 countries, 7 regions and the period 2020–2026, including petrol, diesel and LPG.	1.0	Anushka Dubey
3	**Solution Overview**	Describe data preparation and the Tableau dashboard structure, including KPI cards, nine visualisations and interactive filters.	1.0	Anushka Dubey
4	**Live Feature Demonstration**	Demonstrate fuel-price trends, regional and country comparisons, tax analysis and subsidy-related views. Apply year, region and fuel-type filters.	3.0	Anushka Dubey
5	**Insights & Conclusion**	Summarise the main observations and explain the academic-data limitation and possible future improvements.	1.0	Anushka Dubey
6	**Q&A; Session**	Respond to questions about the dataset, calculations, dashboard design, filters and interpretation.	1.0	Anushka Dubey

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	State the objective and explain the need for a consolidated global comparison.
2	Solution Overview	Describe the dataset, preparation process and Tableau dashboard.
3	Live Feature Demonstration	Navigate through the nine views and demonstrate the interactive filters.
4	Q&A; Session	Answer questions and clarify the scope and limitations of the dataset.

Note: The dataset is used for academic analysis and contains estimated/simulated values; the dashboard should not be presented as a source of verified live fuel prices.
